

## CHEMISTRY 1B-02-AL Students Requiring Accommodation

UC Santa Cruz is committed to creating an academic environment that supports its diverse student body. If you are a student with a disability who requires accommodations to achieve equal access in this course, please submit your Accommodation Authorization Letter from the Disability Resource Center (DRC) to me privately during my office hours or by appointment, preferably within the first two weeks of the quarter. At this time, we would also like us to discuss ways we can ensure your full participation in the course. We encourage all students who may benefit from learning more about DRC services to contact DRC by phone at [831-459-2089](tel:831-459-2089) or

by email at [drc@ucsc.edu](mailto:drc@ucsc.edu).

In addition to the statement above I would be very interested if the active learning format of our class poses and special issues for your learning experience; and how we might address these !!!

A handwritten signature in blue ink that reads "Eugene Switzer". The signature is written in a cursive style with a large, stylized 'E' and 'S'.

Professor of Chemistry and Biochemistry
