

Crown 85 Report

Blindsight

Report to the class on the following structures of the eye and briefly state their functions.

8. What is blindsight and which visual pathway may be implicated?

Here the student will BRIEFLY report on the phenomenon of blindsight and the evidence on what pathways may be involved. One can find many contemporary references and may be an appropriate topic for a more extensive CROWN 85 capstone project. For the short report presentation you should concentrate on the material in the following summary references:
